

Web Site Robot Manual

1. Installation

Please download from NetForAll at <http://www.netforall.com/downloads.html> then, click on setup.exe and follow the instructions on the screen.

2. Registration

Click on the WebSiteRobot icon on your desktop to bring up the *Registration Screen*. Read and accept the license, fill out the *Registration Form* and click on *Send*.

3. Web Site Address

Your web site address will be sent to you at the email address provided on the *Registration Form*. Please fill in a valid email address that you check often. Your email will NOT be made public on your web site. Instead, visitors will use the *Contact Form* available on your site.

4. Operation

Copy any file, folder, images, chart, sound, video or other into your MyWebSite folder. It is in your main C hard drive, [C:\MyWebSite](#), with a shortcut on your desktop. Then select the *Control Center* tab of the Robot, and click on *Synchronize*.

5. File Description, Shopping Cart

Select the *Add Notes* tab of the Robot and use the directory tree on the left to select the file or folder. Then fill the notes field like Title, Number, Description, etc and click on *Save*. When done with all items, select the *Control Center* and click on *Synchronize*.

Filling the *Price* of any item automatically includes a **shopping cart** on your web site, with online secure payments by credit card.

When the *Title* of an image is **main**, it is displayed in normal size instead of a thumbnail.

When the *Title* is **logo** and the image is located in the main *MyWebSite* folder, it is used as the logo of the web site.

When the *Title* of an item is **hide**, the item is not displayed although it is still available on the site.
